If you're worried about a blood sugar imbalance leading to diabetes, you owe it to yourself and your loved ones to try the safe, natural, all-day blood-sugar stabilizing secret that's changing the lives of TENS OF THOUSANDS of men and women … without drugs … without diet … without injections!
Dear Friend,

Is your blood sugar too high and draining you of energy?

Have you been labeled a pre-diabetic?

Do you stress about what to eat out of fear you’re making matters worse for your health?

If you answered YES or MAYBE to any of these three questions, YOU'RE NOT ALONE.

79 million people are pre-diabetic with high blood sugar levels that make them feel famished and thirsty, exhausted, irritable with added blurred vision and tingling in the hands and feet.

What's more unsettling...

Twenty-five million Americans suffer from Type II diabetes which puts them at greater risk for everything from heart disease and stroke to kidney failure and blindness.

Maybe you or a loved one are caught in one of these two groups and face each day with the sword of bad blood sugar hanging overhead

If so, I have very good news for you today.

Now, you can stop worrying about whether everything you eat is making your blood sugar levels rise higher.

You can stop worrying about failing your next glucose test...

You can stop worrying about the threat of diabetes and now...

You can start enjoying your life, your health, and all your favorite foods as never before.

Don't worry another minute about your blood sugar levels...

NOW, YOU CAN STABILIZE YOUR BLOOD SUGAR FOR THE REST OF YOUR LIFE, WITHOUT ADDING ANY DRUGS!

YOUR BLOOD SUGAR BURNOUT IS OVER!
How does GLUCO HARMONY® work so you can lower your blood sugar naturally and get the most energy and health from your food ... all at the same time?

Before I tell you the answer that Big Pharma doesn’t want you to know about...

First let me offer a little background on blood sugar burnout and why you don’t want to ignore it.

There are two main characters in any blood sugar drama: Glucose and Insulin.

► Glucose, made from carbohydrates, is your body’s major energy source.

► Insulin is the only way to get glucose into your cells.

Simply stated, when you put too much glucose in your blood, your pancreas responds by pumping out more insulin.

When that cycle goes on for too long, your pancreas suffers fatigue and your cells become insulin-resistant and...THEY DON’T GET FED.

Starved cells make you more hungry, more thirsty and increase your craving for more empty-calorie foods and that only puts more strain on your pancreas and increases your blood sugar levels.

GLUCOSE LEVELS DROPPED AFTER THE FIRST DAY!

Heidi’s success story – This could be your story starting today!

“I started your product and my blood glucose dropped 28 mg/dl after the first day’s dose. Your Gluco formula is really helping me to get my readings down to where my doctor wants them. Thanks IVL!”

- Heidi R., Enumclaw, WA

(Or Have Never Heard Of)

BLOOD SUGAR LOWERING SECRET #1 GYNEMENA SYLVESTRE – Ayurvedic doctors use Gymnema Sylvestre as their first and most powerful agent for improving blood sugar control. In clinical tests, this herb has demonstrated a significant reduction in blood glucose. Like no other Ayurvedic herb, Gymnema Sylvestre has been shown to help...

- **NORMALIZE** blood sugar and triglycerides
- **REDUCE** sugar craving and reduce sweet stimuli
- **IMPROVE** insulin pathways and thus decrease insulin needs

BLOOD SUGAR LOWERING SECRET #2 BITTER MELON – Close to 100 studies have demonstrated the blood sugar-lowering effect of bitter melon. It also enhances the cells’ uptake of glucose, activates the pancreatic cells that make insulin and reduces the craving for sweets.

For centuries, bitter melon has been an Asian folk remedy for improving glucose tolerance and only now has science started to document what traditional healers have known for generations.

BLOOD SUGAR LOWERING SECRET #3 PTEROCARPUS MARSUPIUM – You don’t need to be able to pronounce the name of this herb, but you do need to know that P. marsupium demonstrates remarkable glucose-lowering power. Plus, in repeated studies, P. Marsupium was able to reverse the damage to the pancreatic beta cells. The result was the near complete restoration of normal insulin secretion. This restoration, in turn, helps to counter the effects of insulin resistance.

BLOOD SUGAR LOWERING SECRET #4 SHILAJIT – Shilajit is a unique mineral obtained from rocks in the Himalayan region.

In Ayurvedic medicine, shilajit is classified as an adaptogen, meaning it’s well-suited to transport a wide variety of herbal support into the deep tissues of your body. For this reason, this unique herb has shown itself to be effective in carrying blood sugar into insulin-resistant cells.

Shilajit also helps reduce oxidative stress (think of it as internal “rusting”) which is a common disorder associated with blood sugar imbalances.

BLOOD SUGAR LOWERING SECRET #5 CURCUMIN – Curcumin is one of the major antioxidant extracts found in the spice turmeric. It has been used successfully in Ayurvedic medicine to reduce the oxidative stress (or internal rust) throughout the body.

When excess glucose resides in the blood, it causes injury to the small blood vessels that feed the eyes, kidneys and heart. Curcumin helps repair that damage. What’s more...

Curcumin increases the levels of prostacyclin, your body’s natural zapper of abnormal platelet clusters which are linked to abnormal blood sugar and blood clots.

BLOOD SUGAR LOWERING SECRET #6 FENUGREEK – Since ancient times, East Indian herbalists have used fenugreek, a common spice, to combat blood-sugar imbalances. Now, modern research has shown that fenugreek does help with glucose management by acting as a filtering buffer.

Fenugreek seeds are 55% fiber which is why they slow down food digestion. Because fenugreek is broken down slowly, it delays glucose absorption, resulting in lower blood sugar.

BLOOD SUGAR LOWERING SECRET #7 CINNAMON – And you thought cinnamon was only good during the holidays. In the Ayurvedic tradition, cinnamon is used to help alleviate fatigue, fever and pain, but that’s not all. Dr. Richard Anderson, at the Human Nutrition Research Center (USDA) found that cinnamon has a key substance called methylhydroxychalcone polymer (MHCP) that helps stimulate glucose intake. How?

Cinnamon works by modifying the insulin receptors of your cells so they can better manage all the glucose energy you want and need.

BLOOD SUGAR LOWERING SECRET #8 HOLY BASIL – Holy basil is named because of the tradition of planting this herb around the temples of India to purify the air.

A significant placebo-controlled, crossover study published in the *Journal of Clinical Pharmacy and Therapeutics* showed a 17.6 percent reduction in blood sugar and led the scientists to conclude that holy basil was a powerful natural agent for supporting stable blood sugar.

BLOOD SUGAR LOWERING SECRET #9 BANABA – Can one leaf, grown in the tropics, help you lower blood sugar and lose weight at the same time? That is how Banaba is regarded in Japan, the Philippines and in India. How does it work?

Banaba leaf contains corosolic acid which acts as an amazingly-efficient glucose transport activator. As banaba helps you gain a tighter control over both blood sugar and insulin levels, it simultaneously promotes weight loss – without significant dietary changes.

When you reduce the "yo-yo" swings between glucose and insulin, you reduce your need to eat more when you don’t need it.

Throughout the world, many weight-loss formulas are now using banaba as a safe, natural and essential component. But there’s no need to seek it out as a separate formula because banaba is a FABULOUS built-in benefit of using GLUCO HARMONY®!

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Before you take any supplement, please consult your physician or other licensed healthcare professional to determine if it’s appropriate for you. Curcumin should not be taken by anyone who has a biliary tract obstruction or is taking anticoagulants, as curcumin stimulates bile secretion and acts as a blood thinner.

WHOSE BODY NEEDS THE EXTREMES OF BLOOD SUGAR IMBALANCE?

The Answer: No One Needs It!

Because of the American diet and the fast pace of our lifestyle with too little exercise built in, most people over 30 have problems maintaining proper blood sugar balance.

As a result, you may feel as if you’re constantly on a yo-yo, bouncing back between feeling revved up and utterly fatigued.

WHOSE ORGANS NEED THOSE EXTREMES?
Not your pancreas. Not your heart. Not your kidneys. Not your eyes. In fact, all your major organs suffer from undue stress when your glucose and insulin levels experience enormous spikes and spills.

Despite regular reports in the national press about the near epidemic-level of diabetes, people persist in thinking about diabetes as simply blood sugar levels that are a little high or low. NO BIG DEAL! WRONG!

First and foremost, diabetes is a major risk factor for heart disease and stroke. Why?

Because when you have rapidly rising and falling glucose levels, those extremes “de-stabilize” your heart rhythms.

The excess insulin produced by the pancreas to respond to the glucose spikes causes high blood pressure problems. Which is why diabetics are two to four times as likely to have heart disease or a stroke.

Diabetes is the number one cause of kidney failure because excess glucose in the bloodstream damages the small blood vessels in the kidneys.

In the eyes, sudden surges of blood sugar put extra stress on the retinal blood vessels. The repeated stresses that diabetics often experience causes these vessels to hemorrhage and break down.

Diabetes is the second most common cause of blindness in older people, following glaucoma.

Type 2 diabetes typically strikes later in life and as the 77 million baby boomers age, the number of people who will suffer is expected to skyrocket.

IN FACT, IT’S ESTIMATED THAT SOME 40% OF AMERICANS 65 OR OLDER NOW HAVE DIABETES.

Don’t stress anymore about the grim statistics.
Don’t stress anymore about what you eat.
Don’t stress anymore about whether your blood sugar readings are in the normal range and...

TRUE BLOOD SUGAR STORY #4

PASSED THE TEST I THOUGHT I WOULD FAIL!
Felix’s Success story.
This could be your story starting today!

“I was told from my doctor that in two months they were going to test me for diabetes. So I knew that I ate too many sweets and I was going to fail the test. I ordered Gluco Balance (now Gluco Harmony) right away hoping to pass the test. I took your Gluco formula for one month. I took the test and passed the test and the doctor did not find diabetes in my body.”

– Felix Torres, Henderson, NV
Ways You Can Avoid or Reverse the Threat of Diabetes for Life...

1. **Eat Complex Carbohydrates. Forget Soda Pop!**
   Here’s a good rule of thumb to follow: The longer food takes to chew, the better it is for you. All processed food and beverages are packed with sugar and salt and will only create glucose spikes which you must avoid. Your ideal diet would be low in fat and high in slow-digesting, complex carbs like legumes, whole grains and most fruits and vegetables.

2. **Move It or Lose It!**
   Regular daily exercise improves the ability of your cells to accept insulin which, in turn, allows them to burn glucose more efficiently.

3. **Sunlight Is Your Friend!**
   When you take a 20-minute walk outside, you can get an extra shot of natural insulin which will help you normalize your blood sugar levels. (Plus, natural Vitamin D3, which your body converts from sunlight, is believed to help lower insulin resistance and reduce blood pressure!)

4. **Lose a Little, Gain a Lot!**
   95% of all diabetics and prediabetics carry too much weight and body fat. Which is why doctors and health professionals recommend monitoring your total percentage of body fat. They recommend no more than 24% body fat for women and no more than 17% for men. Lose a little body fat with the help of GLUCO HARMONY and gain a lot of health for life.

5. **Use Gluco Harmony® and Get a Brand New Body!**
   GLUCO HARMONY is the MOST ADVANCED and comprehensive nutraceutical formula ever developed for the management of glucose levels. It is formulated to help you stop sugar craving and maintain healthy blood sugar levels without causing hypoglycemia.

**John’s Success Story – This could be your story starting today!**

“About 3 months ago I tried a 3 month supply of GLUCO HARMONY to help normalize my blood sugar. To my amazement – it really works! I was averaging a reading of 209 a week before I started using it and now I rarely exceed 120. I now experience more energy – lost 6 lbs and have eliminated brain fog. Now that I’ve tried GLUCO HARMONY for 3 months, I feel like I could roller skate into a buffalo herd! I’m sold on it. Thank you so much.”

– John R., Fenton, MO
Since 2004, GLUCO HARMONY® has been a proven way for tens of thousands of men and women to take control of their blood sugar energy and insure their vitality and independence.

GLUCO HARMONY takes the best of the best of the Ayurvedic extracts and combines them into ONE, complete scientifically-formulated supplement to help you stop sugar cravings, gain everyday glucose control and lower your insulin requirements – all at the same time. Like no other formula on the market, GLUCO HARMONY may help you...

► STOP sugar cravings
► IMPROVE insulin response in the body
► NORMALIZE blood sugar levels
► REDUCE the glycemic index after meals
► REACH AND MAINTAIN your ideal weight
► GIVE you more freedom in your diet

If your energy and mood levels are subject to wild fluctuations...
If you’re over 30 and overweight..
If you crave sugar throughout the day...

If food does not give you all the fuel you need to manage your busy days...

GLUCO HARMONY is made for you.

Now, you’ll be able to take charge of your health and energy as never before when others settle for a yo-yo existence that’s fraught with health perils.

No matter what your age or current physical condition, you too can easily STOP sugar cravings, REACH AND MAINTAIN ideal body weight and DODGE the diabetes bullet – when so many others will not. Starting today, it’s all possible with GLUCO HARMONY.

(Continues on pg 18)
The vast majority of people with blood sugar imbalances can be helped with diet, exercise and supplements, but most doctors won’t take that route. To control blood sugar, most doctors will get their patients on diabetes drugs. But here are the facts:

All blood-sugar lowering drugs have side effects. All of them gradually become less effective, which means the side effects continue and so does the disease. The end result…

The total annual cost of diabetes is estimated to be 92 billion, but the numbers of people diagnosed with the disease keeps skyrocketing.

**THE TRUTH IS THIS:**
The only way to avoid, manage or reverse diabetes is to bring your blood sugar back into balance. And that’s precisely what GLUCO HARMONY can do for you, day in, day out, without fail.

**IS IT POSSIBLE TO COMBAT THE BLOOD SUGAR CRISIS WITHOUT DRUGS AND WIN?**

The answer, we believe, is YES.

Diet and exercise are critical, but while you make those lifestyle changes, you can still normalize your blood sugar levels and protect yourself from the ravages of other health problems associated with diabetes. HOW CAN YOU DO THIS THE EASY WAY?

By using GLUCO HARMONY®. Like no other blood sugar regulator, GLUCO HARMONY can help repair and rebuild a faulty blood sugar system – so that you’ll stop sugar cravings, gain more fuel from food and even achieve your optimal weight.

**MOLLY’S SUCCESS STORY – This story could be your story!**

“Your GLUCO HARMONY is a Godsend to me, it keeps my gluco at a normal number, not too low or too high, just right. No pills or shots, I eat right and exercise. I thank God for GLUCO HARMONY, and I thank God for IVL.”

- Molly Hudson, Miami, FL
Often diabetes goes undiagnosed because many of its symptoms seem so harmless. Recent studies indicate that the early detection of diabetes symptoms can decrease the chance of developing the complications of diabetes. Some diabetes symptoms include…

- Frequent urination
- Excessive thirst
- Extreme hunger
- Unusual weight loss
- Increased fatigue
- Irritability
- Blurry vision

If you’re experiencing any of these symptoms, please consult your doctor right away. In the meantime, avoid simple sugars, take daily exercise and try Gluco Harmony® – RISK FREE – for as long as you like. We guarantee it will help you better manage your blood sugar or it’s YOURS FREE!

**True Blood Sugar Story #8**

**Theresa’s success story – This story could be your story starting today!**

“I was diagnosed with type 2 diabetes 3 months ago. My mother read about your product and encouraged me to try GLUCO HARMONY. I am pleased to report that it has significantly helped lower and manage my blood sugar. My doctor is very pleased with my new low blood sugar test results. GLUCO HARMONY took the fear out of my new diagnosis and it will be a long life companion in my daily regimen.”

– Theresa Page, Franklin, TN

**TRUE BLOOD SUGAR STORY #9**

**DOCTOR USES GLUCO HARMONY® INSTEAD OF DRUGS!**

**Doctor’s Success Story – This could be your story starting today**

“I am a 72 year old physician who about 1½ - 2 years ago found that my fasting blood sugar was staying at 125 for 2 years in a row. I was then placed on an oral extended release medication. It helped my blood sugar to be in balance, but the side effects of bloating, belching, body aches and lassitude became unacceptable. I put myself on GLUCO HARMONY and my blood sugar is in balance and side effects are minimal or none. Thanks.”

– S.O., Houston, TX

**TRUE BLOOD SUGAR STORY #10**

**I AM A TOTALLY NEW PERSON!**

**Oralia’s Success Story – This story could be your story starting today!**

“My blood sugar levels had shot up to 335 and I was forced to take prescription drugs. The drug intake resulted in heart palpitations and kidney pain until I discovered IVL products and started taking GLUCO HARMONY. I have been on it for about a year now and am a totally new person, with blood sugar levels of 120 to 140. I can honestly say that I can eat anything I want in moderation. I feel great, no worry about blood sugar levels and no side effects. I highly recommend this product.”

– Oralia V., Houston, TX
